OFFICE OF THE
CHIEF COUNSEL
RULES DOCKET

1999 AUG 11 P 12: 32

I am sending this message to tell you that we are all for the reduction of helicopter and fixed wing aircraft flights over the Grand Canyon National Park.

My son works in the town of Tusayan and my husband and I have been there and at the Grand Canyon many times. The noise really distracts from and pollutes the beauty and once upon a time serenity of the National Park.

I hope you will add my information to the list of those that want the reduction in air traffic. Thank you for your time.

Nancy M. Carter
